Q2 2018 Management's Discussion and Analysis

READER ADVISORY

The Management's Discussion and Analysis ("MD&A") for the three and six month periods ended June 30, 2018 of Cordy Oilfield Services Inc. ("Cordy" or the "Corporation"), prepared as at August 22, 2018, focuses on the unaudited interim condensed consolidated financial statements and related notes for the respective periods and pertains to principal risks and uncertainties related to the Corporation's business segments. This discussion should not be considered all-inclusive as it does not include all changes regarding general economic, political, governmental and environmental events. This discussion should be read in conjunction with the Corporation's 2017 audited Annual Consolidated Financial Statements, the December 31, 2017 MD&A, the unaudited interim condensed consolidated financial statements and related notes as at and for the three and six month periods ended June 30, 2018 and the cautionary statement regarding forward-looking information and statements on the last page of this document.

This MD&A contains certain statements that constitute forward-looking statements under the meaning of applicable securities laws. Please see "Forward-Looking Information, Assumptions and Risk Factors" on page 9 for a discussion regarding Cordy's use of such information. For the reader's reference, the definition, calculation and reconciliation of non-GAAP terms are provided in "Non-GAAP Terms" on page 8. Readers are cautioned that these non-GAAP terms should not replace net earnings (loss), earnings (loss) per share, purchases and proceeds on sale of property, plant and equipment and debt as indicators of GAAP performance.

This MD&A and the interim financial statements were reviewed by the Audit Committee of the Corporation's Board of Directors and approved by Cordy's Board of Directors on August 22, 2018.

CORPORATE OVERVIEW

Cordy is a service provider to the western Canadian oil and gas sector. Cordy is headquartered in Calgary, Alberta, Canada, and is listed on the TSX Venture Exchange under the trading symbol "CKK". Cordy's operating businesses are separate legal entities that service two business segments in Alberta. The entities are:

Cordy Environmental Inc. ("Environmental Services"); The segment's clean-up, hazardous goods transportation and containment services are provided to the oil and natural gas industry and also to industrial and commercial customers in Alberta. This segment provides general water truck and vacuum truck services to oilfield and non-oilfield related industries; confined-space entry services; dangerous goods transportation and general transportation services; high-pressure and steam cleaning services; septic and holding tank cleaning; hydro-excavation; liquids and solids spill response services; and 24-hour emergency response coverage.

Cordy Construction Inc. ("Heavy Construction"); Heavy Construction services include pipeline integrity management; cleanup services; low-pressure gas tie-ins; insulated pipeline installation; cement-lined pipeline installation; fibreglass pipeline installation; water injection lines; construction and installation of compressors, line heaters, separator buildings and header systems; pipeline maintenance and repairs; tying-in wellheads; decommissioning old well sites; and transportation of facility components to production sites. In providing pipeline construction and oilfield maintenance services, the focus is on small to medium-diameter pipeline construction, primarily gathering system pipe under 12" in diameter.

OUTLOOK

Cordy's second quarter results met our expectations and reflect the previous commentary surrounding modest growth and ongoing challenges facing margins. In the quarter Cordy benefited from its diversification focus, by growing both the industrial and municipal service side of the business. Cordy continues to benefit from its acquisition of Hornet Hydrovac ("Hornet") through expanded service offerings to pre-existing Hornet customers and further building relationships in the hydro excavation market. Cordy continues to re-evaluate its equipment mix to ensure capital is being allocated for the highest return on capital. Cordy's equipment lender has been and will be critical in helping liquidate underperforming assets while enabling Cordy to strategically tweak its equipment fleet to meet any upcoming demand.

Cordy believes the second half of 2018 will trend similar to the first half, Cordy anticipates continued growth similar to levels seen in the first six months of 2018 as compared to 2017. The steady rise in crude oil pricing continues to improve optimism on increased future capital investment on infrastructure projects as well as drilling, both of which would benefit Cordy. Cordy expects pricing for its services to remain stagnant as competition and over abundance of equipment remains a market reality.

While remaining focused on operational and financial performance Cordy will continue to seek out acquisitions and or consolidation opportunities that complement its diversification strategy and provide platforms for organic growth. Cordy is actively reviewing numerous opportunities, however we remain committed to ensuring any acquisition meets our strategic initiatives and financial thresholds. Cordy will continue to consider multiple avenues, to reach strategic objectives and provide shareholder value.

⁽¹⁾ Gross Margin is a non-IFRS term and is defined as revenue less direct operating expenses, see reconciliation on page 8 of this document.

OVERALL PERFORMANCE

For the six month period ended June 30, 2018, Cordy's consolidated revenues increased by \$2.6 million or 45 percent, from the comparative period in 2017. Normalized operating earnings⁽¹⁾ was \$1.1 million representing a \$0.2 million or 25 percent increase from the comparative period.

The Environmental Services saw increased revenue for the six months ended June 30, 2018, of \$2.6 million, from the comparative period in 2017. Cordy saw increased revenue in each guarter: In the first guarter Cordy's sales efforts and competitive pricing allowed Cordy to gain market share over competitors; Cordy's second quarter increase can be attributed to Cordy's diversification strategy, resulting in new customers and increased demand for municipal services. Normalized operating earnings⁽¹⁾ increased to \$1.4 million for the six months ended 2018, as compared to \$1.2 million in the comparative period.

⁽¹⁾ Normalized operating earnings (loss) is a non-IFRS term and is defined as revenue less direct operating expenses, see reconciliation on page 8 of this document.

The Construction segment saw minimal changes in revenue for the six months ended June 30, 2018 compared to the six months ended June 30, 2017; this is due to the reduced demand for services and minimal activity year over year.

Overall consolidated net loss for the six months ended June 30, 2018, has improved by \$0.5 million or 75 percent from the comparative period in 2017. This improving net loss is due to improving results, reduced interest rate and diminishing balance calculation of depreciation.

⁽¹⁾ Normalized operating earnings (loss) is a non-IFRS term and is defined as revenue less direct operating expenses, see reconciliation on page 8 of this document.

Revenue

For the three months ended June 30, 2018 Cordy's consolidated revenues increased by \$1.2 million or 59 percent as compared to the prior period ended June 30, 2017. The increase is directly attributable to increased organic sales efforts, coupled with the increased service offering to existing customers.

For the six months ended June 30, 2018, Cordy's consolidated revenues increased by \$2.6 million or 45 percent to \$8.4 million as compared to the six months ended June 30, 2017. The Environmental segment accounts for the period-over-period increase, Environmental saw increased revenues stemming from increased market share from oilfield customers in the first quarter of 2017, coupled the expansion of service offerings to pre-existing Hornet customers and continued organic sales efforts.

Direct operating expenses ("DOE")

For the three months ended June 30, 2018, consolidated DOE were \$2.6 million compared to \$1.6 million in the same period of the prior year. As a percentage of revenue DOE increased to 79 percent from 73 percent. The majority of the expenses relate to the Environmental Services segment; where DOE as a percentage of revenue was 80 percent compared to 73 percent in 2017. The increase is due to increased fuel costs, labour costs due to lack of availability of workforce, coupled with no opportunity to increase pricing.

For the six months ended June 30, 2018, consolidated DOE were \$6.7 million compared to \$4.1 million in the same period of

the prior year. As a percentage of revenue DOE increased to 79 percent from 71 percent. The majority of the expenses relate to the Environmental Services segment; where DOE as a percentage of revenue was 80 percent compared to 74 percent in 2017. The increase in direct operating expenses is related to the aforementioned cost increases.

General and administrative expenses ("G&A")

G&A includes the cost of maintaining a corporate office, all publicly traded company-related expenses as well as the G&A incurred at each of the business units. For the three months ended June 30, 2018, G&A was \$0.6 million compared to \$0.4 million for the same period of the prior year. The increase to G&A is due to a bad debt expense of \$0.2 million in the quarter.

For the six months ended June 30, 2017, G&A was \$0.9 million as compared to \$0.8 million for the same period of the prior year. As a percentage of revenue G&A has decreased to 11 percent from 14 percent or normalized for bad debt expense G&A has decreased to 8 percent of revenue. The decrease is due to increased revenue and maintaining the existing cost structure.

Depreciation

Depreciation was \$0.5 million for the three months ended June 30, 2018 compared to \$0.6 million for the three months ended June 30, 2017 and \$0.9 million for the six months ended June 30, 2018 compared to \$1.1 million for the six months ended June 30, 2017. The decrease is due to less depreciation annually due to the diminishing balance calculation of depreciation.

Finance costs

Finance costs remained consistent at \$0.2 million for the three months ended June 30, 2018 and 2017. For the six months ended June 30, 2018 finance costs were \$0.3 million as compared to \$0.5 million for the six months ended June 30, 2017, finance costs are lower due to reduced borrowing amounts coupled with reduced interest rates.

Gain on disposal

For the six months ended June 30, 2018 the Corporation disposed of property and equipment with a carrying value of \$0.8 million (2017 - \$0.4 million) for proceeds of \$1.0 million (2017 - \$0.5 million) resulting in a gain of \$0.2 million (2017 - \$0.1 million).

OFF-BALANCE-SHEET ARRANGEMENTS

As at June 30, 2018, the Corporation had no off-balance-sheet arrangements (June 30, 2017 – \$nil) except for operating leases previously described in the 2017 MD&A.

QUARTERLY SUMMARY

The table below summarizes Cordy's quarterly results for the previous eight financial quarters. The Corporation's operations and profitability are closely tied to the seasonal activity patterns of western Canada's oil and natural gas exploration and development industry, for which activity peaks in the winter months and declines during spring break-up. During spring break-up, the ground thaws and many roads become incapable of supporting heavy equipment, which makes drilling for oil and gas more difficult. As a result, demand for oilfield services generally is higher in the first and fourth quarters and lower in the second and third quarters.

FINANCIAL RESULTS

	20	18	2017			201	2016	
(\$ millions) (except per share information)	Q2	Q1	Q4	Q3	Q2	Q1	Q4	Q3

The following items are key events that occurred in each quarter:

The following items are key events that occurred in select quarters:

- Q2 2018 continued to trend similar to the first quarter, in that demand for services continues to improve. In the quarter Cordy recognized a bad debt of \$0.2 million, with respect to remediation services performed on a pipeline spill.
- Q1 2018 saw increased demand for Cordy's services, recovering commodity prices, coupled with Cordy's sales efforts resulted in increased revenue for the quarter.
- Q4 2017 trended similarly to Q4 2016. Operating earnings were \$0.2 million higher due to 2016 incurring legal costs and a bad debt expense that did not reoccur in 2017.
- Q3 2017 showed a slight improvement in activity over Q3 2016. A majority of the increase came from the municipal
 market with Oilfield sales trending slightly higher quarter over quarter. Subsequent to Q3 2017, the Corporation
 entered into two restated lease agreements, these agreements reduced payments, reduced interest rate and reduce
 cash flow pressures for 2018.
- Q2 2017 trended consistently with the prior year; historically Q2 is a slower quarter for Cordy based on the seasonality of oilfield work. Cordy continued to closely monitor margins and maintain a tight cost structure.
- Q1 2017 saw consolidated revenue growth of \$1.0 million. This increase can be attributed to a slight increase in

- oilfield demand from Cordy's major oilfield customers.
- Q4 2016 provided evidence that optimism and a slow recovery of commodity prices are beginning to have an effect
 on Cordy's revenue. Cordy's Environmental segment showed revenue growth from Q4 2015, and improving margins
 as Cordy's cost cutting focus began to yield results. During the quarter Cordy also completed a private placement for
 proceeds of \$1.0 million.
- Q3 2016 trended similar to Q2 2016, Cordy continued to scrutinize all costs while focusing on revenue growth and servicing customers. The downturn coupled with a competitive pricing environment continued to effect demand for Cordy's services. In the quarter Cordy announced a new executive management team and completed a rights offering for proceeds of \$1.3 million.

FINANCIAL RESOURCES AND LIQUIDITY

The unaudited interim condensed consolidated financial statements have been prepared on a going concern basis, which assumes that the Corporation will be able to realize its assets and discharge its liabilities in the normal course of business. The financial statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate. If the going concern basis was not appropriate for these financial statements, then adjustments would be necessary to the carrying values of assets and liabilities.

An analysis of the Corporation's short-term liquidity is as follows:

as at June 30, 2018 (\$ 000's)	Environmental Services	Heavy Construction	Corporate	Total
(1)				
Liquid assets (1)	3,007	229	4	3,240
Current liabilities	3,440	105	109	3,654
Net liquid assets	(433)	124	(105)	(414)
	Environmental	Heavy		
as at December 31, 2017	Services	Construction	Corporate	Total
(\$ 000's)			•	
Liquid assets (1)	1,971	313	320	2,604
Current liabilities	2,066	109	596	2,771
Net liquid assets	(95)	204	(276)	(167)

⁽¹⁾ Liquid assets is a non-IFRS term and is defined as assets quickly converted into cash, and trade and other receivables as defined on page 8.

The Corporation has taken significant steps over the past several years to improve its liquidity and financial performance including increasing cash flow from operations, refinancing the finance lease agreements, reducing the working capital deficit and settling the amount owing to Lyncorp.

The Corporation has recorded net loss of \$0.2 million for the six months ended June 30, 2018. Earnings and cash flow from operations need to increase further to support the future obligations of the Corporation. These conditions create a material uncertainty that may cast significant doubt about the Corporation's ability to continue as a going concern.

The ability of the Corporation to continue as a going concern and to realize the carrying value of its assets and discharge its liabilities when due, is dependent on the continuation of the improvements in the financial results. Management believes that the regular payment of the lease obligations will be met out of operating cash flows or cash from equipment sales or alternate financing or the raising of funds. If for any reason the Corporation is unable to continue as a going concern, it could impact the Corporation's ability to realize assets at their recognized values and to meet liabilities in the ordinary course of business at the amounts stated in the consolidated financial statements.

FINANCIAL MANAGEMENT

Six months ended June 30

(\$ 000's)	2018	2017	\$ Change
Cash generated provided by (used in):			
Operating activities	356	281	75
Financing activities	(1,642)	(1,328)	(314)
Investing activities	1,006	377	629
Decrease in cash	(280)	(670)	390

Cash flows from operating activities increased in the six month period ended June 30, 2018 from the same period in 2017 by \$0.1 million due to timing differences in working capital.

Cash flows from financing activities decreased by \$0.3 million in the six month period ended June 30, 2018 from the same period in 2017. The decrease is due to repayment of finance leases through the sale of equipment and the settlement of the related party debt.

Cash flows from investing activities increased in the six month period ended June 30, 2018 from the same period in 2017 by \$0.6 million as the Corporation realized proceeds from the sale of property and equipment in 2018.

WORKING CAPITAL

Management continues to re-evaluate its available financing options. The Corporation expects to fund its ongoing operations and debt repayments from a combination of cash flow, the refinancing of debt and asset dispositions as needed.

(\$ 000's)	June 30, 2018	December 31, 2017	\$ Change
Cash	-	280	(280)
Bank indebtedness	25	-	25
Loans and finance leases	14,736	15,380	(644)
Net cash	(14,761)	(15,100)	339
Working capital (deficit)	(52)	202	(254)

Working capital has decreased for the period due to increased short-term obligations under finance leases; receivables were \$3.2 million as at June 30, 2018 as compared to \$2.3 million as at December 31, 2017. The \$0.9 million increase in receivables, was only offset partially by an increase of \$0.4 million to payables. These working capital increases have been offset by short-term obligations under finance leases that increased from \$1.0 million at December 31, 2017 to \$1.7 million at June 30, 2018. The increase in short-term finance lease obligations is due to increase payments starting September 2018.

LOANS AND BORROWING

The Corporation operates under several finance lease agreements with its equipment lender ("the Existing Leases"), the Existing Leases consist of consolidated monthly payment of \$140,000, reduce in July and August, reduced payment schedule is a \$10,000 payment July 2018 and \$10,000 payment August 2018. The consolidated monthly payment increases to \$230,000 in September 2018 with a further increase to \$240,000 in July 2019. The leases bear interest at 4.95% until August 2020 at which point the interest rate will be a variable rate equal to prime plus 2.0%.

During the quarter the Corporation entered into a new finance lease arrangement with its equipment lender for the purchase of a Hydrovac. The purchase was facilitated through the Corporations lender, but the manufacturer shares a key management personnel. The finance lease is for 84 months, commencing on May 7, 2018 until June 25, 2025. The monthly payment is \$6,000 and the lease bears interest at 4.95% until August 2020 at which point the interest rate will be a variable rate equal to prime plus 2.0%.

All future payments are subject to change as Cordy has the option to sell the equipment and have all proceeds applied against the remaining principal balance. In the event of default Cordy is subject to additional interest and penalties.

(\$ 000's)	June 30, 2018	December 31, 2017
Current liabilities:		
Bank indebtedness	25	-
Related party loan payable	-	283
Current portion of finance lease obligations	1,736	1,018
Current portion of debt	1,761	1,301
Non-current liabilities:		
Finance lease obligations	13,000	14,262
Non-current portion of debt	13,000	14,262
Total term debt obligations	14,761	15,563

TRANSACTIONS WITH RELATED PARTIES

Lyncorp International Ltd ("Lyncorp") is considered a related party; a company wholly-owned by David Mullen, the Chairman and a director of Cordy. Together, David Mullen and Lyncorp hold approximately 13.2% (2017 – 13.2%) of Cordy's outstanding common shares. All of the transactions with Lyncorp occurred in the normal course of operations with terms consistent with those offered to arm's length parties and are measured at the exchange amount.

Related party loan payable

The Corporation entered into a loan agreement on December 22, 2014 with Lyncorp. The loan bore interest at 15%. During the first quarter of 2018, the Corporation entered into a settlement agreement with Lyncorp. Pursuant thereto, the Corporation made a payment of \$0.125 million in January 2018, \$0.125 million in March 2018 for full and final settlement of all interest and debt owing to Lyncorp.

Related party transactions	June 30,	December 31,
	2018	2017
Related party loan payable	-	283

NON - GAAP TERMS

Cordy reports on certain key financial performance measures that are used by management to evaluate the performance of Cordy. These key financial performance measures are not recognized financial terms ("Non-GAAP Terms") under Canadian generally accepted accounting principles (Canadian "GAAP"). For publicly accountable enterprises, such as Cordy, Canadian GAAP is governed by principles based on International Financial Reporting Standards ("IFRS") and interpretations of the International Financial Reporting Interpretation Committee ("IFRIC"). Management believes these Non-GAAP Terms are useful supplemental measures. Specifically, EBITDAS is not recognized by nor is it defined under IFRS. These Non-GAAP Terms do not have standardized meanings and may not be comparable to similar measures presented by other entities.

Liquid Assets

Liquid assets are defined as current assets less inventory, prepaid and other assets, and current taxes recoverable. Management believes this is useful as supplemental information to current assets as it specifies assets that are quickly convertible into cash. Readers are cautioned that liquid assets should not be construed as an alternative to current assets in accordance with IFRS. The Corporation's method of calculating liquid assets may differ from that of other companies and accordingly, may not be comparable to measures used by other companies.

Non-GAAP Term

As at		
(\$ 000's)	June 30, 2018	31-Dec-17
Current assets	3,602	2,973
Deduct:		
Inventory	80	91
Prepaid and other assets	232	228
Restricted cash	50	50
Liquid assets	3,240	2,604

Gross Margin

Gross margin is defined as revenue less direct operating expenses. The Corporation's method of calculating gross margin may differ from that of other companies and accordingly, may not be comparable to measures used by other companies.

Non-GAAP Term				
Periods ended June 30	Three Month	ns	Six Months	
(\$ 000's)	2018	2017	2018	2017
Revenue	3,316	2,129	8,443	5,823
Deduct:				
Direct operating expenses	2,623	1,552	6,664	4,149
Gross margin	693	577	1,779	1,674

Normalized Operating Earnings (Loss)

Normalized operating earnings (loss) is defined as earnings before interest, taxes, depreciation, amortization, impairment, share-based payments, and bad debt expense. Normalized operating earnings (loss) is not a recognized measure under IFRS. Management believes this is a useful supplemental measure as it provides an indication of the results generated from the Corporation's business activities regardless of the means used to finance the property and equipment. Readers are cautioned that normalized operating earnings (loss) should not be construed as an alternative to net income in accordance with IFRS as an indicator of the Corporation's performance. The Corporation's method of calculating normalized operating earnings (loss) may differ from that of other companies and, accordingly, normalized operating earnings (loss) may not be comparable to measure used by other companies.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The Corporation prepares its interim condensed consolidated financial statements in accordance with IFRS. In preparing its financial statements, management is required to make various estimates and judgments in determining the reported amounts of assets and liabilities, revenues and expenses, as well as the disclosure of commitments and contingencies. Management bases its estimates and judgments on its own experience and various other assumptions believed to be reasonable at the time

and under the circumstances in existence when the financial statements were prepared. Anticipating future events cannot be done with certainty; therefore, these estimates may change as new events occur, more experience is acquired or the Corporation's operating environment changes. More detailed information regarding the accounting estimates believed by management to require the most difficult, subjective or complex judgments and which are material to the Corporation's financial reporting results are discussed in the Corporation's Annual MD&A for the year ended December 31, 2017.

KEY RISKS AND UNCERTAINTIES

The Corporation is exposed to market risks and other operational risks. For a detailed discussion of these risks, readers should refer to the section "Principal Risks and Uncertainties" in the MD&A for the year ended December 31, 2017, which is available at www.sedar.com.

ADDITIONAL CORPORATE INFORMATION

The Corporation is a publicly-traded Corporation listed on the TSX Venture Exchange under the symbol "CKK". Additional information relating to the Corporation, can be found on SEDAR at www.sedar.com.

FORWARD-LOOKING INFORMATION, ASSUMPTIONS AND RISK FACTORS

This MD&A contains certain statements that constitute forward-looking statements. These statements relate to future events or the Corporation's future performance. All statements, other than statements of historical fact, that address activities, events or developments that the Corporation or a third party expects or anticipates will or may occur in the future, are forward-looking statements. These include the Corporation's future growth, results of operations, performance and business prospects and opportunities; prevailing economic conditions; commodity prices; sourcing, components and parts, equipment, suppliers, facilities and skilled personnel; dependence on major customers; uncertainties in weather and temperature affecting the duration of the service periods and the activities that can be completed; regional competition; and other factors, many of which are beyond the Corporation's control. These other factors include future prices of oil and natural gas and oil and natural gas industry activity, including the effect of changes in commodity prices on oil and natural gas exploration and development activity, the ability to complete strategic acquisitions and realize the anticipated benefits of any acquisitions that are completed, the Corporation's outlook regarding the competitive environment it operates in, and the assumptions underlying any of the foregoing. Forward-looking statements are often, but not always, identified by the use of words such as "seek", "anticipate", "plan", "continue", "estimate", "expect", "may", "will", "project", "predict", "potential", "targeting", "intend", "could", "might", "should", "believe" and similar expressions. These statements involve known and unknown risks, uncertainties and other factors, many of which are beyond the Corporation's control, including those discussed under "Principal Risks and Uncertainties" in the MD&A for the year ended December 31, 2017 that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. The Corporation believes that the expectations reflected in those forward-looking statements are reasonable, but no assurance can be given that these expectations will prove to be correct and such forward-looking statements included in this MD&A should not be unduly relied upon. These statements speak only as of the date of this MD&A. The Corporation does not intend, and does not assume any obligation, to update these forward-looking statements, whether as a result of new information, future events or otherwise, except as required under applicable securities laws. The forward-looking statements contained in this MD&A are expressly qualified by this cautionary statement.

In particular, forward-looking information, assumptions and statements include discussion reflecting the Corporation's belief that:

- Cordy intends to continue to re-evaluate its business and deploy its people and equipment to achieve a reasonable return on investments over the long term. Management plans to continue to adjust the equipment fleet to reflect business realities;
- Cordy intends to use the anticipated cash flow from operating activities and the proceeds on disposition of equipment
 and other assets for the remainder of 2018 to finance working capital requirements, debt repayments and capital
 expenditures, while seeking additional financing;
- Cordy's belief that 2018 will continue be a growth year, this forward looking statement is based on the assumption that demand for Cordy's services will continue to improve along with the Western Canadian economy;
- Cordy will also continue to evaluate potential mergers and or business combinations. Cordy cannot give assurances
 of mergers or combinations being consummated, even though the Corporation has had initial discussion with several
 companies. Suitable candidates include companies with synergistic operations, stable or increasing revenues,
 sustainable cash flows and access to capital;
- Cordy will use the anticipated cash flow from operating activity, financing activities, and proceeds from disposition of
 equipment and other assets in 2018 to finance on-going working capital and repay debt. This assumption is based
 on Cordy's belief that its access to cash will exceed its expected requirements;
- Cordy will continue to benefit from our business restructuring initiatives, execute its strategy and achieve its revenue, net profit, and cash flow forecasts for 2018;

- Our customers and potential customers continuing to invest in the oil sands and other resource developments and to
 outsource activities for which we are capable of providing services;
- Our success will be dependent on managing our business, maintaining and growing customer relationships, obtaining new customers, competing in the bidding process to secure new projects, and identifying and implementing improvements in our maintenance, fleet management practice and the ability to secure financing;
- Cordy's diversification strategy will continue to bring new customers, grow other service lines and achieve reasonable margins.

Forward looking statements address future events and conditions and, therefore, involve inherent risk and uncertainties. Risk factors and other uncertainties that could cause actual results to differ materially from those anticipated in such forward-looking statements. Canada's oil and natural gas industry is resource rich but market constrained. The oil and natural gas industry and its supporting oilfield services industry sector will continue to be impacted by price fluctuations for oil and natural gas and related products and services; political and economic conditions; industry competition; Cordy's ability to attract and retain key personnel; the availability of future debt and equity financing; changes in laws or regulations, including taxation and environmental regulations; and fluctuations in foreign exchange or interest rates and other market factors.

Readers are cautioned that the foregoing factors are not exhaustive. Additional information on these and other factors that could affect the Corporation's operations and financial results is included in reports on file with securities regulatory authorities in Canada and may be accessed through the SEDAR website (www.sedar.com) or at the Corporation's website. The forward-looking statements and information contained in this MD&A are expressly qualified by this cautionary statement. The Corporation does not undertake any obligation to publicly update or revise any forward-looking statements or information, whether as a result of new information, future events or otherwise, except as may be required by applicable securities laws.
